CLARUSWAY

WAY TO REINVENT YOURSELF

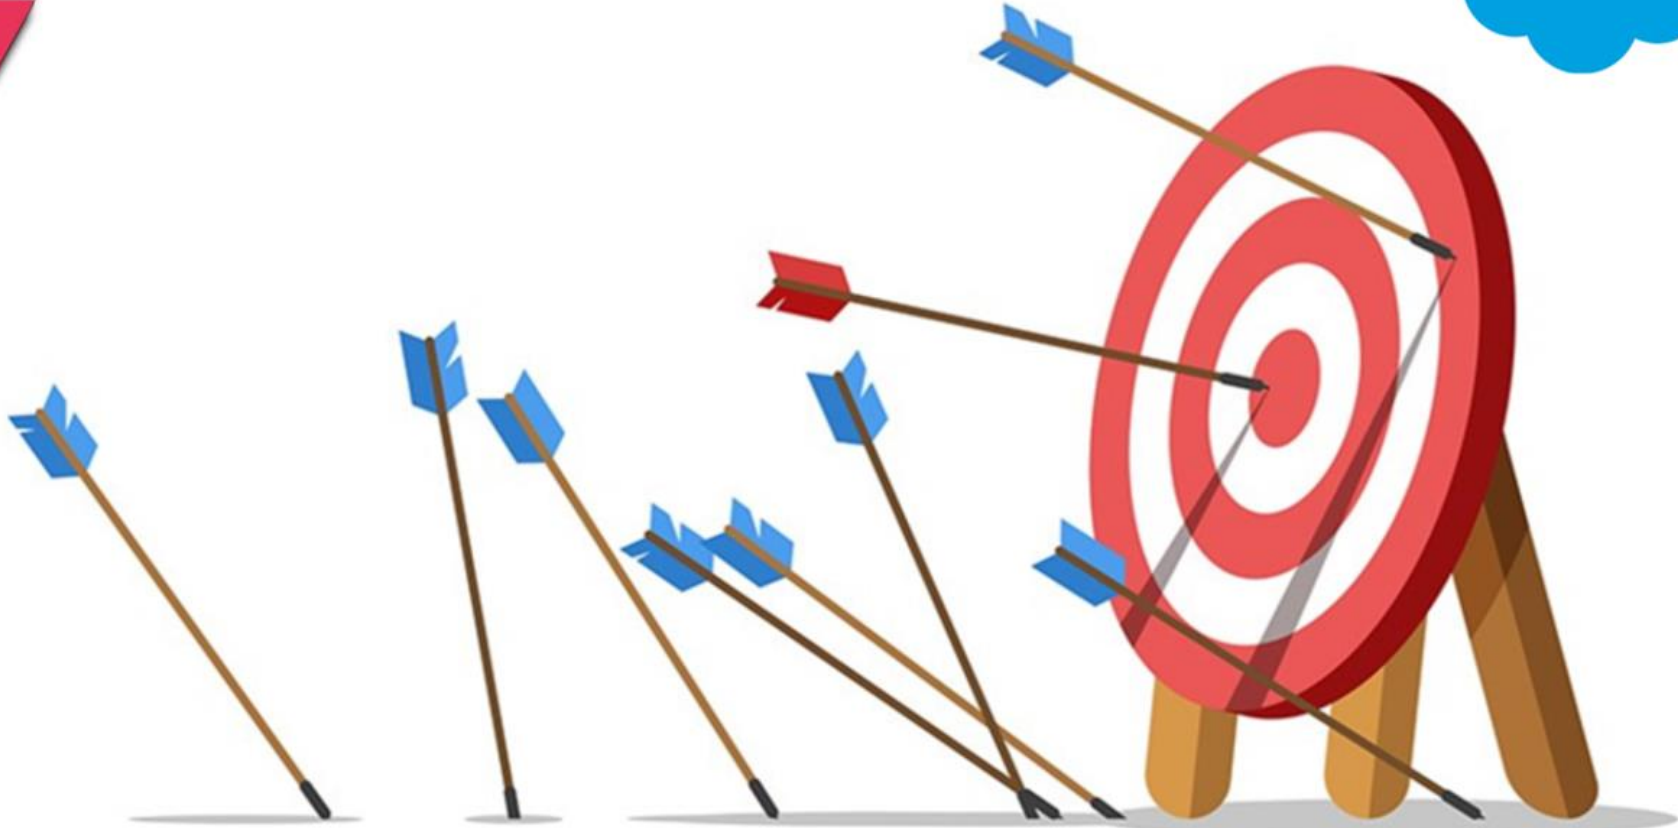

CW IMPLEMENTATION PROJECT WORKSHOP-2

REQUIREMENT

It is important for Clarusway to identify which campaign is generating Leads to their Salesforce account. Campaign object and Ads object in their Salesforce account should contain URLs of incoming Leads' campaigns. By doing so, they can see how much money was spent on which advertisement and how much was earned. Is it possible for you to meet this need without using any code as a Software Developer?

PRACTICE MAKES PERFECT
